<b>Office Action Summary</b>	<b>Application No.</b> 10/784,527	<b>Applicant(s)</b> PARKER, JEFFERY R.	
	<b>Examiner</b> Thomas M. Sember	<b>Art Unit</b> 2875	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**1. DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 5, 7, 9, 15-21, 24, 28 and 35-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Koppolu et al. Koppolu et al discloses a light emitting panel assembly comprising a light emitting panel member 10 for receiving light from a light source 14 and conducting the light along the length of the panel member, the panel member having two or more separate parts or modular components (36, 38, 40) and a pattern of light extracting deformities 28 on or in one or more of the parts or components (2) for providing a desired light output distribution from the light emitting surface (32). A structural reflecting member 22 holds the modular components and parts together. A film or coating covers the deformities, see column 3, lines 49-51.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 2875

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 9, 30-31 and 38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Koppolu et al in view of Tokunaga '043. Koppolu et al discloses the claimed invention except for the teaching that the light source is an LED or colored LEDs. Tokunaga teaches an illuminated lighting panel which uses LEDs or colored LEDs. It would have been obvious to one skilled in the art at the time the invention was made to substitute a low voltage LED light source as taught by Tokunaga for the light source of Koppolu et al in order to provide a longer lasting and more efficient light source.

#### ***Allowable Subject Matter***

4. Claims 3-4 and 22-23 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 2875

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
